About Us

At LumentiQ, we see light as an essential element of architecture shaping spaces, enhancing experiences, and defining the way people interact with their surroundings. Our collections are thoughtfully designed to unite refined aesthetics with advanced lighting technology, delivering solutions that are both timeless and purposeful. Every luminaire reflects our commitment to precision engineering, exceptional craftsmanship, and uncompromising quality. From contemporary residences to commercial, hospitality, and architectural environments, our products are created to complement modern design while delivering outstanding visual comfort and performance.

Guided by innovation and a deep understanding of design, we collaborate to create lighting that elevates every space with clarity, warmth, and character. At LumentiQ, illumination is not simply about light it is about creating enduring experiences through design.

Features

- Eays Installation
- Fliker Free Driver*
- Uniform Illuminition
- Low Maintenance
- Premium Aluminium Housing
- High Effeciency Bridgelux LEDs
- Surge Protection upto 4kv
- High Power Factor Drivers.
- Custom Designed Light
- 2 Year Warranty
